***Nutrition and Metabolism* is an open access, peer-reviewed, online journal that focuses on the integration of nutrition, exercise physiology, clinical investigations, and molecular and cellular biochemistry of metabolism.**

The journal publishes on all aspects of nutritional biochemistry and related clinical fields including obesity, diabetes, lipidemias, metabolic syndrome and exercise physiology that have an underlying basis in metabolism and other areas that have implications for human nutrition and medicine.

*Nutrition and Metabolism* is tracked/indexed by PubMed, PubMed Central, Thomson Reuters (ISI), CAS, Embase, Scopus, Current Contents and Google Scholar.

The journal considers the following article types: book reviews, brief communications, commentaries, critical reviews, letters, methods, original research and perspectives. For further details, see [www.nutritionandmetabolism.com/info/about/](http://www.nutritionandmetabolism.com/info/about/).

**Reasons for publishing in *Nutrition and Metabolism*:**

- All articles published in the journal are open access; universally accessible online without charge.
  - High visibility for your work - anyone with Internet access can read your article, free of charge.
  - Included in PubMed - making your work easy to find, read and cite.
  - Articles are published immediately upon acceptance.
  - Authors retain the copyright of their articles.
  - Electronic submission and peer-review makes the whole process of publishing your article simple and efficient.
  - Publishing online means unlimited space for figures, extensive datasets and video footage.
  - Professional formatting meets the standards expected by researchers.
